

ELECTORAL SYSTEM

It is the responsibility of the Board of Directors to establish the electoral system used for electing board members.

Authority under RCW 28A.343.040

The Board of Directors, with the assistance of the administration, the ESD, the State Redistricting Commission, and consultants (attorneys, demographic experts, etc.) as appropriate, will prepare for the division or re-division of the district into director districts no later than eight months after any of the following events:

1. Receipt of federal decennial census data from the redistricting commission;
2. Consolidation of the district with one or more other districts into one district;
3. Transfer of territory to or from the district or dissolution and annexation of the district; or
4. Approval by a majority of the districts registered voters of a proposition to divide the district into director districts.

The districting or re-districting plan shall be adopted according to the procedure established under RCW 29A.76.010.

Authority under Washington Voting Rights Act

The district will ensure that its voting system does not impair the ability of a protected class or classes, as defined by the Washington Voting Rights Act, to have an equal opportunity to elect candidates of their choice as a result of the dilution or abridgement of the rights of voters who are members of a protected class or classes.

To remedy a potential violation of Washington Voting Rights Act, the district may change its electoral system, which may include, but is not limited to, implementing director-based elections requiring a candidate for the Board of Directors to reside within an election district that is a divisible part of the North Kitsap School District and elected only by voters residing within that election district.
