

STUDENT IMMUNIZATION AND LIFE-THREATENING HEALTH CONDITIONS

Immunizations

In order to safeguard the school community from the spread of certain communicable diseases and in recognition that prevention is a means of combating the spread of disease, the board requires a student to present evidence of his/her having been immunized against diseases as required by the State Board of Health.

Exemptions from Immunization

The district shall allow for exemptions from immunization requirements only as allowed for by RCW 28A.210.090.

Meningococcal Immunizations and Vaccine Information Distribution

The district shall provide parents and guardians of students in sixth grade and above with information about meningococcal disease and its vaccine at the beginning of every school year. The information shall will address the characteristics of the disease; where to find additional information about the disease; vaccinations for children; and current recommendations from the Unites States Centers for Disease Control and Prevention regarding receiving the vaccine.

Human Papilloma Virus Disease and Vaccine Information Distribution

At the beginning of every school year, from six through twelfth grade, the district shall will provide parents and guardians with information, provided by the Washington State Department of Health about human papilloma virus disease (HPV) and its vaccine.

The information shall include the causes and symptoms of the human papilloma virus, how the disease is spread, the places where parents and guardians may obtain additional information and vaccinations for their children and current recommendations from the Unites States Centers for Disease Control prevention regarding the vaccine.

Life Threatening Health Conditions

Prior to attendance at school, each child with a life-threatening condition shall will present a medication or treatment order from a Licensed Healthcare Provider (LHP) addressing the condition. A life-threatening health condition means a condition that will put the child in danger of death during the school day if a medication or treatment order, providing authority to a registered nurse, and a nursing care plan are not in place. Following submission of the medication or treatment order, a registered nurse will develop the nursing care plan plan shall be developed.

Students who have a life-threatening condition and no medication or treatment order presented to the school shall will be excluded from school, to the extent that the district can do so consistent with federal requirements for students with disabilities under the Individuals with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, and according pursuant to the following due process requirements in School District Procedure 3413P.

Exclusion from School

The district will exclude students only as allowed for by RCW 28A.210.120 and WAC 392.380.050.

The superintendent will adopt procedures necessary to implement this policy.

- ~~A. Written notice to the parents, guardians or persons in loco parentis delivered to the parents in person or by certified mail.~~
- ~~B. Notice of the applicable laws, including a copy of the laws and rules.~~
- ~~C. The order that the student shall be excluded from school immediately and until a medication or treatment order is presented.~~
- ~~D. Explain the rights of the parents and students to a hearing, the hearing process and explain that the exclusion continues until the medication or treatment plan is presented or the hearing officer determines that the student should no longer be excluded from school.~~
- ~~E. If the parents request a hearing, the district shall schedule one within three school days of receiving the request, unless more time is requested by the parents.~~
- ~~F. The hearing process shall be consistent with the procedures established for disciplinary cases pursuant to Chapter 180-40 WAC.~~
