

ACCOUNTABILITY GOALS

High School Graduation Rate Goals

The board will annually adopt district-wide graduation goals and direct each high school to annually establish goals, subject to board approval, to increase the percentage of on-time graduates receiving a high school diploma beginning with the class of 2004.

The minimum graduation rate goals through 2013 shall be as defined in WAC 180-105-060. Graduation rate goals in 2014 and each year thereafter for each group of students, identified in federal requirements, shall not be less than 85 percent.

District and School Reading and Mathematics Improvement Goals

The board shall adopt district-wide performance improvement goals for reading and mathematics; and direct each school in the district that administers the statewide assessment to adopt performance improvement goals to increase the percentage of students meeting the standard in reading and mathematics.

The following goals and calculation methodologies will be established to measure and improve student achievement in reading and mathematics within the grade level bands as measured by the statewide assessment administered as required by state and federal law.

1. The baseline of achievement for the district and schools within the grade level bands on the reading and mathematics assessments for each grade are the starting points established using the federal requirements in the Washington State No Child Left Behind (NCLB) Accountability Plan.
2. The goal for the district and for each school is to increase the percentage of students in the following categories that meet or exceed the reading and mathematics improvement goals on the state uniform bar as established using the federal requirements in the Washington State No Child Left Behind (NCLB) Accountability Plan:
 - a. All students;
 - b. Students of each major racial and ethnic group;
 - c. Economically disadvantaged students;
 - d. Students served in Special Education; and
 - e. Students served in the state's Transitional Bilingual Instructional Program.
3. The district and all schools shall demonstrate satisfactory progress toward the performance improvement goals by meeting the federal requirements or by showing improvements using the alternative "Safe Harbor" calculation.

Once a year the board shall issue a report to parents and present it in a public meeting. The reports shall include the following:

1. The district's and buildings' improvement goals.
2. Student performance relative to the goals.
3. District and building plans to achieve the goals, including curriculum and instruction, parent and guardian involvement, and resources available to parents and guardians to assist students in meeting the state standards.

Annually the district will report the district's progress toward meeting the district and building goals in a news release to local media. The report shall also be included in each school's annual school report.
